

Quik Stop Gas Stations

Client: Quik Stop Markets

Livingston, CA

**"Prototype" Design
3,000 sf C-Store
Touch less Car Wash**

ARC Inc. Architects developed the "prototype" design for their new C-Store / Gas stations in the Northern California and Nevada area. All of the sites were built from the "ground-up" (NTI) with the majority of the locations featuring a "state-of-the-art" "touch less" car wash. The 3,000 square foot C-Store space for the sites feature customer and staff friendly amenities, which are designed to provide a variety of refreshments and retail merchandise. We are currently working to find and develop additional sites for Quik Stop in the San Francisco Bay Area and the Central Valley area of California.
