

This Lecture Hall building addition was designed to seat approximately 400 students in 2 "auditorium" style classrooms for Touro University's College of Osteopathic Medicine on Mare Island in Vallejo, CA. The 6,900 square foot addition to the existing 77,000 square foot medical school was designed to match the original color scheme and fenestration pattern, while complementing the original building's massing with a series of steps in elevation and plan.
