

Private Residence, Howell Mountain - Napa, CA

Client: Layne Family

This 1800's Farmhouse was the subject of a major renovation and addition. Great care was taken to maintain the original farmhouse architecture throughout. Updates were made to the master bedroom, kitchen and pantry to bring these spaces gently into the modern era. Skylights and a vaulted ceiling were added to the kitchen. Attention to archi-

tectural details such as trim and rafter orientation allowed for the finished product to have the continuity desired to blend the original with the new. Over 700 s.f. of additional living space was added in the master bedroom and the kitchen, bringing the total square footage of the residence up to 2,000 s.f.
